[#ISMCS2023](https://twitter.com/Intl_ISMCS)

On behalf of the local organizing committee, I am delighted to invite you to the 29th Annual Meeting and Scientific Sessions of the International Society for Mechanical Circulatory Support (ISMCS). The conference will take place from October 29th to November 1st at the Gaylord Hotel in Dallas/Fort Worth, TX, USA. The *ISMCS2023* will be held in person, and there will not be a virtual option for the meeting this year.

Our goal is to provide you with an exceptional learning and networking opportunity. Last year we had a very successful combined meeting with the European Mechanical Circulatory Support Summit (EUMS) in Hannover, Germany. This year, the *ISMCS2023* Scientific Program is built on last year's highly successful post-pandemic gathering.

We have lined up a distinguished set of speakers and presenters who will share their expertise and insights on all aspects of the mechanical circulatory support field. Moreover, the meeting will focus on many current hot topics, such as Acute Circulatory Support, Pulmonary Support, Technology Gaps, Durable Mechanical Circulatory Support challenges, and the financial aspects of these therapies. In addition, the *ISMCS2023* program will offer pre-meeting ECMO and acute circulatory support workshops, as well as sessions for advanced practice providers and coordinators. We are confident that you will find the content engaging and thought-provoking.

All this is taking place in one of the most vibrant cities in the United States, with a historic stockyard, fabulous restaurants, and a dynamic cultural district.

I look forward to meeting you in Dallas, TX.

Sincerely,

Aly El Banayosy
Conference President
